PROFILE

Multidisciplinary designer with 10+ years of experience across motion, web and graphic design.

I create high-impact visuals for digital products and marketing — from landing pages and brand identity to motion content and advertising assets.

Experienced in leading projects end-to-end and collaborating with teams to deliver scalable, high-quality design solutions.

Focused on delivering visuals that not only look good but also perform.

Designing UI

For a happy, harmonious life, I believe it is essential to maintain a healthy work-life balance. In my case, this balance comes from regular sport activities (yoga, cycling), creativity (guitar, photography), and meaningful time with family and friends.

I also love good books, music, and spending time with my dogs ;)
