- Google Cloud Platform
- Notion
- Jira
- ClickUp
- TeamWork
- Asana
- Slack
- Claude
- Midjourney

PROFESSIONAL SUMMARY

Creative Lead with 10+ years spanning studio founding, team leadership, and hands-on production in 3D, motion, and visual identity. Built and scaled design operations at US startups, handling high-volume production pipelines, while staying close to the craft - directing lookdev, motion, and brand work. Comfortable owning the creative vision end-to-end: from early concept and stakeholder alignment to final delivery and quality control. Bringing both the strategic oversight to align design with business goals and the hands-on fluency to work directly with the team.

PROFESSIONAL EXPERIENCE

Creative Team Lead

Top Tier Authentics - Miami, US (Remote)

A digital authentication platform for collectibles, consumer goods, and live experiences.

06.2023 - 04.2026

- Directed the design strategy and operations for high-volume 3d content production, leading the team to develop an automation pipeline while eliminating manual bottlenecks (5,000+ SKU renders).
- Managed cross-functional collaboration between design and engineering teams, successfully integrating cloud-rendering systems that reduced creative department workload and optimized infrastructure costs.
- Spearheaded the integration of AI-driven tools and reusable modular design systems, establishing a scalable framework for explainer videos and product launches that significantly shortened time-to-market.
- Managed a portfolio of 10+ B2B partnerships, ensuring strict brand alignment and quality control while maintaining high-velocity production standards.
- End-to-end creative production within Sports Illustrated licensing - spanning brand identity and retail packaging design for a proprietary food product positioned for the US consumer market
- Directed NFC and QR design, management, and production; led prototyping initiatives for NFC-embedded wearables and devices, bridging physical product design with digital authentication technology.
- Supervised creative output across a broad deliverable mix - including A+ content for Amazon listings (driving 25% sales growth), gaming assets, and deck design - ensuring brand integrity and production standards across e-commerce, licensing, and B2B channels.

SOFT SKILLS

- Self-organization & multitasking
- Attention to detail
- Task prioritization
- Analytical thinking
- Conflict resolution
- Resilience under pressure

EDUCATION

Belarusian National Technical University

Bachelor of Engineering

CERTIFICATIONS

- Introduction to MCP - Anthropic
- AI Fluency - Anthropic
- Java Programming - BelHard Group
- Polish B1 - State Certificate
- German B2 - TestDaf Certificate

Design Team Lead

RMeta Labs - New York, US (Remote)

A Web3 integration services and media agency.

01.2022 - 03.2023

- Supervised and mentored a team of modelers, defining quality standards, optimizing assets, and ensuring strict technical spec compliance (4 characters, 120 props/items, and 30+ animations)
- Standardized the workflow for creating photorealistic 3D assets, maintaining visual consistency and high production standards across the board.
- Introduced motion capture (mocap) retargeting workflows, significantly reducing manual animation labor and increasing the team's overall capacity.
- Directed final scene assembly, lookdev, and lighting, acting as the primary quality gatekeeper for high-end video render deliverables.
- Managed environment production for multiple marketing campaigns, aligning creative output with broader digital marketing objectives.

Digital Marketing Specialist (B2B)

Opia Digital - Chicago, US (Remote)

Performance Marketing Agency

04.2020 - 11.2021

- Developed and executed a comprehensive B2B paid ads strategy across Google Ads, LinkedIn Ads, and 6Sense, including full campaign creation, management, and optimization
- Designed and implemented a B2B lead nurturing framework using Drift conversational marketing platform to improve lead engagement and conversion.
- Integrated conversion tracking and lead pipeline development with Salesforce, enabling accurate ROI measurement and sales funnel optimization.

Founder & Creative Lead

One Motion Studio - Warsaw, PL

Motion Design Agency

01.2014 - 04.2020

- Founded and managed a motion design studio, leading end-to-end project management, creative direction, and content production for commercial and branded video projects.
- Built and supervised cross-functional teams including motion designers, video editors, illustrators, and sound designers, managing workflows, timelines, resource allocation, and client communication.
- Produced and delivered 30+ motion design projects, developing creative concepts, storyboards, scripts, and visual storytelling solutions aligned with marketing objectives, and audience engagement goals.
